Vosila Training

Vosila IT is a business dedicated to simplifying the way in which IT is deployed in organisations – large or small.

Our vision is in our by-line: **Vosila IT – making it easier.** We strive to *get back to basics* when working with businesses on their strategy and implementation of IT. You'll often hear us use the words: *simplify; standardize; consolidate;* and, *converge*. These words are simple, yet powerful allies in the quest for IT efficiency and productivity. Vosila IT – making it easier.

## Overview

Vosila Training provides access to highly skilled Microsoft Certified Trainers at very reasonable rates – anywhere in Australia. Our trainers are Microsoft product consultants and support specialists, working with clients on a variety of projects and support issues on a day-to-day basis – so they understand what really goes on in business – and with these technologies.

## Qualified Professionals

Our certified trainers employ world's best practice in training, resulting in above average customer satisfaction ratings. They are highly qualified IT professionals, possessing a combination of MCSE, MCDBA, MCSD and MCT certifications. To maintain currency of skills and knowledge, our trainers spend a maximum of only 30% of their time training – the rest is working on real-world issues and projects with customers. This way they know what really goes on in the real world.

## Our Training Services

Vosila Training offers the following services to ensure your training needs are fully met:

- Free attendee pre-course qualifying – this ensures the right person is at the right course
- Full pre-course preparation and set-up – at a venue of your choice
- A range of packaged courses to choose from
- Fully tailorable courses to exactly meet your needs
- Training offered from one-on-one to full classroom size groups

## Standard Courses

A range of standard Microsoft courses are offered, including Microsoft SQL, Microsoft Visual Basic.Net and Microsoft Exchange. Please call us for our full range of standard course offerings.

## Tailored Course Options

In addition to the standard courses, we are happy to sit with you and design a course specific to your needs – perhaps a blend of two or more of the standard course offerings. Again, please call us to discuss your needs and explore the possibilities.

## Experienced Training Delivered Throughout Australia

It doesn't matter where you are; let our trainers come to you. Don't settle for sub-standard training if the right skills aren't available in your area.

## Your Training Investment

The cost to you for one of our highly skilled trainers is just \$935.00 per day.

Setup and preparation typically requires from four to eight hours depending on complexity of the content and number of PCs involved. This can be performed by us, or if you prefer by yourselves. We can assist in many ways to ensure your training experience is the best it can be.

## What our Customers have said...

*"Excellent trainer. Very informative".*

*"A very good instructor, he knew his stuff. We did more than just go through the Microsoft training material which made the course much more valuable as I was able to relate problems we currently have".*

*"He was really good and cluey. He was well experienced and exactly knew what we were asking even if our questions were not related to the module he was teaching".*

*"...helpful in diverging from the course, showing features that were useful for our needs in delivering a 'lower level' course".*

## Contact Vosila Training

To find out more about the Vosila **Training** offerings, simply email [training@vosila.com](mailto:training@vosila.com) or call Rick Vosila on + 61 401 777 000.

You won't be disappointed!
